MRS. DRISKELL

Dies Saturday Night--She Was The Mother Of Superintendent Andrew Driskell

Hardinburg, Oct. 31, (Special) -- Missouri M. Meador Driskell, wife of David Driskell died Saturday night after an illness of one day. Mrs. Driskell was born Sept. 16, 1844. She was a Miss Meador, a member of a well-known family. On Sept. 1, 1864 she became the wife of David Driskell, who settled upon a farm near town. Here they resided until two years ago when they quit house-keeping. Since then they have lived with their son, Andrew Driskell in Hardinburg. Eight children were born to them, six of whom live to mourn the death of a mother unequalled in kindness and those cheerful qualities that makes the mother the queen and the light of the household.

Besides Andrew, Sept., a County Schools teacher, the surviving children are: George, of Stephenport; Mrs. Wm. Shielman, of Webb, Miss.; Hester, in the employ of the L. H. & St. L. R. Co., of Hardinburg; and Thomas and Faustine of Hartland.

At sixteen years of age she professed religion at Old Freedon church, and to the day of her death she was a consistent member of the Cumberland Presbyterian Church. She leaves a record of life-long cheerfulness, patience and devotion to duty, dispensing sunshine wherever she moved. Indeed, "She had done what she could."

The burial was at Ephesus Sunday afternoon, the funeral services being conducted by Rev. Hardin of Kingsburg, a minister whose preaching she had time and again enjoyed.

TEACHERS

Have a Delightful Meeting At Stephensport Saturday--J. T. Walls Presides.

The Teachers' Association held at Stephensport Saturday was one of much pleasure and benefit to those present. Splendid addresses were made and profitable ideas for school work were exchanged.

The welcome address was made in a very attractive way by Miss Leah Bell Hawkins. The musical program was greatly enjoyed. "Face to Face" was rendered by Miss Esther Payne and Miss Inez McCoy. A recitation was well given by Miss Hawkins. A quartette was rendered by four little girls. Supt. Driskell, who could not be present on account of illness in his family, was greatly missed.

BUYS KASEY PROPERTY

Dr. Forrest Lightfoot and Dr. Chas. Lightfoot have bought the Kasey property including the residence of H. L. Stader. The house on Second and High Streets has been occupied for the last six years by A. H. Murray and family. They moved yesterday to the Gibson place on First Street. Dr. Chas. Lightfoot and his mother have moved into their new home and are planning to improve it extensively. The Lightfoot brothers bought the property from The American Biblio Co.

A CAMPAIGN LIE.

Guthrie, Ky., Oct. 31, 1910. Mr. Rogers Gore, Louisville, Ky. Dear Rogers: Since I have been campaigning in the Third District, I have heard some of the "campaign canards" that are being circulated in the Fourth. Among other things it is stated that Ben Johnson voted against the repeal of the six cent tax on tobacco in the natural leaf. I did hear that his opponent had made such a statement. I have too high an opinion of the Republican nominee's intelligence to believe he would ever take an utterance so preposterously absurd. Ben not only voted for my amendment taking the tax off of leaf tobacco, but he worked for it, and his intimate and accurate knowledge of the working of the Internal Revenue Department made his assistance and advice especially

gratifying and valuable to me. He made a careful and exhaustive study of the law and discovered some of the jokers with which Aldrich (Republicans Patron Saint) had mutilated it.

Of course, he and I, and every other Democrat voted against that iniquitous Payne-Aldrich Tariff Bill which the bill removing the tax from leaf tobacco became an amendment.

In that the friends of the tobacco grower follows the example of our leader, Champ Clark, and all other true Democrats. We tried to make this bad Tariff bill better by amendment, but we never did and never could patch the old thing up sufficiently to make it acceptable to either the Democratic side of the House or the people of the country.

Yours truly,
A. O. Stanley.

PROF. TANNER

Takes Prominent Part In Teachers Meeting At West Point--Reads Good Paper

West Point, Ky., Oct. 26th--Prof. Tanner, of Cloverport, made a splendid talk upon the Dangerous Tendencies of our School Methods. The Editor of the Southern School Journal made a special request that he be permitted to publish Prof. W. H. Sprig's poem. The most amusing feature of the meeting, was the contest to decide who was the best looking teacher present. A committee was appointed to bring the candidates to the platform, and face the audience. The best class entered by Prof. P. F. Smith of Mound City at the head of the class, Prof. Board, Prof. Sprig, Prof. Pilgrim, Prof. Robbins, with Prof. Tanner at the foot of the class. After a most spirited contest, the palm of prize was awarded to Prof. Pusey, whose magnitude completely overshadowed the others. The beaten candidates are pluming themselves, that if they are lacking in quantity, they can make up with Prof. Pusey in quality.

The American Publishing Co. gave a dictionary to the most popular teacher, Prof. Pusey, and a school library to Miss Madson, the most popular lady teacher.

TOBACCO SUIT.

Burley Society Holds W. T. Arnold to Court For Selling His Pooled Tobacco.

The suit of the Burley Tobacco Society against W. T. Arnold, of Brumfield, that was brought out for trial in Judge Coulter's court a few days ago, has been postponed until the next meeting of quarterly court which is the fourth Monday in November.

The Burley Tobacco Society sue Mr. Arnold for breach of contract. It is alleged that Arnold pooled his tobacco, thereby contracting not to sell it, but that he did sell it to the damage of the pool.

Mr. Arnold, however, contends that the pool broke its contract with him thereby releasing him from obligation.

One of the various instances which Mr. Arnold cites of a breach of contract is in the matter of the warehouse. The warehouse, under the contract was to be ready to a certain time. It was not ready, then, he alleges, nor was it ready until a long time thereafter.

A good deal of feeling has been caused among tobacco raisers by suits of this kind, and even the strongest pool men are serious in their criticism of Clarence Lebus, president of the society--Danville Messenger.

NEXT SUNDAY

Will Be The Dedication Of St. Mary's In The Woods At McQuady--The Rt. Rev. Bishop O'Donaghau Expected.

The dedication of the Catholic church of St. Mary's in The Woods will take place next Sunday November the sixth. The Rt. Rev. Bishop O'Donaghau and his private secretary, Rev. Patric Monaghan, will arrive at McQuady Saturday and will be the guests of the Rev. John F. Kneze, pastor of the new church.

Bishop O'Donaghau will have charge of the dedication which will take place at 10 a.m. His dedicatory address will be an intellectual treat to all present. The choir of St. Mary's of The Woods will render High Mass. Then will follow the confirmation of a large class of forty young people.

In the afternoon at 2:30 o'clock will

take place the blessing of the statues of the Sacred Heart of Jesus and the Blessed Virgin Mary followed by a lecture from the eloquent lips of the renowned Missionary, Rev. Father X. Sutton, of the Passionist order.

Those who are not present at the dedication and who wish to have their names inscribed on the engraved tablet of the church, forward one dollar to Father Kneze, and he will be extremely thankful for the donation to this worthy cause.

GADDIE'S GIFTS TO THE FARMER.

Dr. D. W. Gaddie, the modern Moses, was fished from the bull-rushes on Valley Creek by the Republicans and nominated for Congress in opposition to Hon. Ben Johnson, the present member of the House from this district. Gaddie is the greatest find the Republicans have made since the discovery of Prof. Peter Day Deblo, better known as Slessey Bill.

Here are a few things the Doctor is going to give to the farmers, gratis, (provided he is elected):

Gift No. 1--Gaddie's Fertilizer, the ingredients of which is sand and coal ashes, and is highly recommended to grow broom-sage and sassafras bushes in abundance. This fertilizer will be of great help to the farmer, as the above articles are very scarce in this district. This alone should make him famous.

Gift No. 2--Gaddie's Patent Plough,

a most wonderful implement. This plough is guaranteed to break up fifty acres of ground a day without anything hitched to either end. All the man will have to do is to let the plow go on the track of the Doctor's famous fertilizer, and the farmer sit in his fence and whittle and take life easy, while this wonderful plough does the rest. This implement can be had (in the event of his election) by calling at the Agricultural Department, Washington, D. C., and claiming same.

Gift No. 3--DeWitt's Little Early Risers--They have DeWitt's skinned a block. This will pull the farmer up before day and work him eighteen hours out of the twenty-four in order to fatten the Trustee and impoverish himself, while the Doctor is drawing \$7,500 per year for looking after the poor farmer's interests. He is relying on this wonderful pill to work up some enthusiasm in his own behalf before November 8.

Gift No. 4--Gaddie's Pink Pills for Pale People. Now, dear farmer, you should buy a barrel of these pills, for when Gaddie gets through with you, you will need something to restore your health. Life interest, the common sound of this wonderful pill is a double dough-ball--the kind that catch suckers with--varnished over with a little pink juice to make them palatable.

Now, Mr. Farmer, after all these blessings are promised you, if you should need a little rain to help out the fertilizer, call on Gaddie. A Voter.

Crippen To Hang Nov. 8th

London, Oct. 24--Dr. Hawley H. Crippen, convicted of the murder of his wife, Belle Elmore, the actress, will be hanged on Nov. 8th. The date originally announced was Nov. 15th, but the sheriff advanced the day one week.

BIG FIRE

At Glen Dean Sunday Night--Glasscock And Company Store Burns--Bank Damaged

Fire broke out at Glen Dean Sunday night about 7 o'clock and burned the store of Glasscock & Co. It was valued at \$6,000--loss \$1,000. The store house of the company also burned; it was valued at \$1,000; insurance \$1,000. Bank of Glen Dean, owned by Glasscock, was damaged about \$500, and was covered by insurance. This building was brick and saved the town, but it was dreadfully damaged and the Masonic Hall on the first floor was ruined.

Paul Snyder, cashier of the bank mounted the roof of the bank building at the risk of his life and got the fire under control. Miss Emmy Lou Moorman and Miss Emily Mattingly were among the best fire fighters and did noble work while many of the men stood around and watched the game of the flames.

It was a source of wonder that the entire town was not destroyed by the fire.

The Glasscock Building was one of the first buildings erected in Glendale. It was built by the late John Deane nearly twenty years ago. Mr. W. C. Moorman opened the first store in Glendale. Mr. Glasscock has occupied the store for several years and his many friends deeply sympathize with him and his family who lost everything they had in the fire. All their clothing, household goods and furniture went up in flames. The fire happened while they were at church.

Mrs. G. W. Payne's new trimmings are beauties and the price is so low you can't help from buying.

Choosing One's Fiction.

From Elizabeth Stuart Phelps' "Stories That Stay" in November Century.

Fine fiction, like fine friendship, is a personal affair. Your friend is not to be another's choosing. He is yours to elect; yours to have and to hold, or to love and lose, as the inner law decree. Whether he be of your social or intellectual caste is a secondary matter; he must be of your soul's kin--or you must believe that he is till you learn better--and his quality to you lies as individual as your taste in fruit or wines, in sunsets or marine painting.

Royal BAKING POWDER

Fine Horse Drowned.

A fine horse, valued at \$150, belonging to H. L. Stader, drowned Monday morning.

The team was at the lower wharf and while the driver was in the Wharf boat, the horses walked into the river to get a drink. They walked too far out and one horse drowned. The horses seemed to realize that their lives were in peril for they fought valiantly to be saved. Mr. Stader and some other men went to the team in a skiff to cut them from the wagon as they might swim ashore. However, only one horse was able to swim after the fight. The sight attracted a big crowd and it was terrible to see the horses trying to save their own lives.

Judge Cheff Will Not Hold November Court

Judge Weed Cheff, in order to make his care complete, as he thinks he will, has decided not to hold the November term of the Hardin Circuit Court. Judge Cheff returned last week from Hot Springs and while he is improved greatly, he and his friends think that it would be better for him to not begin work soon. The bar is making an effort to secure Judge W. P. Sandige, of Russellville, who gave such splendid satisfaction in this capacity here recently. —Brown News.

OLD MEADE WILL GIVE BEN JOHNSON THE LARGEST VOTE EVER GIVEN A CANDIDATE

Meade County Republicans Lining up to Send Johnson Back to Congress--His Past Record A Flawless one and Wins Votes for Him.

From Meade County Messenger

The Messenger predicts that Ben Johnson will be elected and his integrity stands unquestioned by any living human being. But there are a thousand elements in Ben Johnson that are admirable--elements that have made him a great man among the greatest of men.

Meade county voters appreciate Mr. Johnson, and just to show him that their appreciation is sincere, they will vote for him on November 8, irrespective of party ties or anything else. Mark this prediction, his majority in this county before.

The popularity of Ben Johnson among all classes in Meade county is largely due to his generosity, his kindness and his love for the people. He is looked upon in Meade county as a sort of "friend and neighbor" who is always anxious and does lend a helping hand. For this reason he has cemented himself in the esteem of the people in the county. And then, too, his record in Congress is without a flaw. He has fought for every interest of the farmer and laborer--he has fought when the odds were against him, with never a thought of faltering.

There is not a more conscientious or abler representative of the people in the National Congress. He towers head and shoulders above the average Congressman in intellect, and in ability to get results; his honesty has never

been doubted and his integrity stands unquestioned by any living human being.

CUSTER.

James Taylor, son of Alf Taylor, aged two and one half years was painfully burned by over turning of a cup of boiling water upon his arms. He is recovering now.

Mrs. Sallie Board Priest, of Rosetta, was in Custer Tuesday shopping and calling on her Taylor friends. It was her first visit to Custer in ten years.

Joe Glasscock, of McDaniels, was here Wednesday associating among the business men.

Sheila Hardaway, who teaches at Hardin Springs, went to his home near Rosetta to spend Saturday and Sunday with his parents, Mr. and Mrs. Buckner Hardaway.

Most of the Rosetta small pox cases are able to sit again and there will be no fear of further spread of the dread disease.

James Harrington and daughter, Miss Lora Harrington, spent Tuesday and Wednesday in Webster with Mr. and Wm. Hall. Mr. Hall will shortly leave the state to find another home. He thinks perhaps he will go West.

Miss Carrie Gilpin left Monday to enter Kingswood College.

Charlie Butler, a former citizen of Custer and ex-deputy sheriff, is in Custer for a few days. Mr. Butler brought the remains of his only baby girl, aged eight months, from his present home, Windor, Ill., to the family burying ground, near Constantine, for interment.

Gid Hager, foster son of Mrs. Ed. Triplett, is seriously ill with typhoid fever.

Miss Esther Meador, who had a serious attack of stomach trouble and was confined to her bed for a week, is now able to return to school duties.

Henry Thimus sold a nice span of mares to Robert Milburn last week.

Joe Dick Milburn and brother, Preston, have rented Mrs. Harrison Roberts farm for the ensuing year.

Ovie Board carried his crop of tobacco to Louisville Monday. The tobacco was his own raising and almost the first to be sold from this section.

This pledged tobacco will be on sale November first.

"Lame Leg Well!"

"I wish to say that I have used Sloan's Liniment in lame leg; it has given me much trouble for six months. It was so bad that I couldn't walk sometimes for a week. I tried different medicine and had a bandage for my leg, and bought everything that I heard of, but they all did me no good, until at last I was persuaded to try Sloan's Liniment. The first application helped it, and in two weeks my leg was well." — A. L. Hunter, of Huntsville, Ala.

FOREIGN MINERS PROTECTED

France Insists on Blind Galleries in Case of Accidents.

Important experiments in the utility of safety chambers have been conducted recently in France, and as a result some of the leading colliery companies are erecting "blind galleries" supplied with compressed air, water, food, etc., and signal arrangements, in their pits.

In Belgium there must be a breathing appliance for every 200 underground workers, for cases of the second and third degree, with trained rescue brigades of not less than four men per set of apparatus.

MAMMOTH CAVE AND TAR SPRINGS.

"Are the people of Kentucky going to allow Mammoth Cave to be entirely forgotten? Are they going to permit Tar Springs to meet a similar fate?" These were the questions that were written on an article pertaining to Mammoth Cave in "The Inter Ocean" and mailed to us from New York last week. In answer to the first, unless the plans of Representative Thomas, of Kentucky, are perfected this great wonder of the world will pass into oblivion. At the next session of Congress Representative Thomas will introduce a bill, providing for the purchase of Mammoth Cave by the government and making it a national park like Yellowstone and Yosemite. It would be splendid for Kentucky if the federal authorities take hold of the estate and improve it, so that the cave might be brought into light again. Yes, the world forgets, even its wonders must be advertised for there are few who can name the greatest wonders of the world—although there are only seven. This is not strange for so many wonderful things are being daily discovered and accomplished by man's ingenious mind. At present the eyes of the universe are turned to flies in the air, and aviation tournaments are more appealing than a curious hole that has been in the ground ever since creation.

As to Tar Springs, its greatest day is dawning. Its curative powers and beauties will be known broadcast in a short time. The Tar Springs Sanatorium Company is receiving gratifying results. With the opening of early spring we may see the resort beautifully made over from cliff to cliff. Sanatoriums seem to be the fad, nowadays, and people with more money than pain, take pride in going to them. They are stylish! For that reason, alone, the enterprise will be a success. But the Sanitorium will not be the sole attraction. For those of us who have not time to get ill, the new Company promises to build a first-class hotel so we can go there for a day of recreation. This is what Tar Springs has sorely needed for the last quarter of a century. With a good cook in the kitchen and a Macadamized road from Cloverport, this nook in the woods will be the most attractive place of the south.

R. C. Adams, one of the most prosperous farmers of Lewisport, wrote to Mayor Lambert last week offering to give a home to a good boy from Owensboro. Mr. Adams says he will clothe and educate him. This should appeal to any boy of a dozen years who has not a home. Besides his own son, Mr. Adams has reared and educated three boys. It means thought, labor, patience and expense to rear a boy. To even teach a boy to work requires a great amount of effort and endurance. We have found that boys have to be paid—and paid high—to learn, instead of their paying to be taught. Boys who are willing to work for the knowledge of it are few and far between. The most of them think entirely of filling their pocket books, instead of training their hands and cultivating their minds for broader work as they grow older. This, however, is not the fault of the boy, his parents are to blame for not impressing on his mind that the wings he earns is the least value of his day's work. Let us teach the boy to value knowledge more than money, and to be more appreciative of those who give him his training. It is easy to give the boy advice and to tell him what to do, but to teach him how—not only teach him—but to pay for his mistakes, is another problem and one that is, sometimes, exasperating.

The Kentucky State Fair netted a profit of over \$20,000, all of which will be applied on a debt amounting to more than that sum. The attendance broke all record for that institution. If the city people had patronized the fair like the country folks, the entire indebtess could have been cleared up and then some left for hot chocolate this winter. Louisville people were conspicuous at the Fair for their absence and one had to go to the vaudeville to get a glimpse of them. The majority of the city people are formerly from the country and it is amazing to see how quickly they lose interest in the things that they used to help raise down on the farm. Next year it would be judicious for the State Fair to advertise its attractions in Louisville and see if they cannot arouse a deeper interest in the institution in the Falls City.

We denounce Republican protection as a fraud, taxing the labor of the great majority of the people for the benefit of the few. This is the principle which the Democrats have advocated for years, and yet the cost of living under the Republican tariff tax of today is greater than ever known. Why a poor man struggling for existence under the enormous tariff advocated by the Republican party of today, will go to the polls and vote for a man who represents these principles, is hard to understand. Dr. Gaddie, the Republican nominee in this district, endorses this high tariff principle, and the people should vote against him. They should stand by Ben Johnson, who is a friend to the people.

Those of you who are financially convenient and so kind as to do your Christmas shopping early, be wise enough to buy practical and useful gifts. The day of fancy penwipers for women and match scratchers for men has passed. Most people, as a rule, give a lot of

rash and after Christmas the homes are simply stocked with dust catchers. Leave cheap china ornaments and brass jewelry alone. Last summer we heard a bachelor say that a woman gave him a yellow satin pin cushion for a Christmas present and he had been using it ever since for a foot-stool. This goes to prove how much a useful present is appreciated.

Friday night, November the eleventh, at Huddinsburg, an update spelling contest will be held. Superintendent Driskel and all teachers in the county attend and compete with their best. The prize is offered by Herbert Board, and a cash prize by Mr. Driskel. The proceeds will be for the benefit of the county High Schools. Along with the spelling, we suggest that the speller give the definition of each word spelt that he and the audience may get the full benefit of the word. Knowing how to spell a word without knowing its meaning, is like having a needle without thread, it is useless. We commend these spelling matches. They are helpful and interesting, and we are glad to see some of our citizens taking an active interest, not alone with their work, but giving their money to help the cause along.

John D. Rockefeller's old home in Cleveland has been leased as an institute for the care of alcoholics. Mrs. Rockefeller always cheered this house, as it was the birth place of their children and where her husband began to climb the lamp-post to fame with Standard Oil. The friends of the Rockefeller family seemed to be astonished at the leasing of the old homestead. From this act, it is evident that John D. has more money than sentiment, and the more money a man has, the more he wants.

The Democrats in every precinct should make it a point to go to the polls next Tuesday and vote for Congressman Ben Johnson. While we may not carry the county, we ought to show our strength by turning out and reducing the majority for the Republicans as much as possible. Mr. Johnson is an able representative and has always stood for the interests of the people.

The Republican Fiscal Court of this county has recently raised the salary of County School Superintendent Driskel, from \$800 to \$1,200 per annum. Mr. Joel Pile, as good a man as the county ever had in the office, filled it for two terms at eight hundred dollars per annum. Now when the poor tax payers of the county are struggling against hard times, the Republicans go to increasing salaries wherever they can do so.

Mr. Farmer did you ever stop to think that your 8½ cent hog never becomes 35 cent bacon until after it leaves your farm? You are letting the Republican party fool you while they are making millionaires by the thousands. Farm products sell just as high in countries where hats sell for \$1 that you have to pay \$2.50 for here, and where a suit of clothes sells for \$10, that costs the farmer here \$20. And this same difference holds good on every article the farmer buys to buy.

Hetty Green's son bought 15,000 picture postal cards the other day to send back to his friends in Texas on his return home in New York City. They cost \$200. Edward is enough like his mommy to have a few dollars left in his pocket-book. The majority of fellows who take pleasure trips, usually have to borrow money to get home.

John T. Datto, of Deatour, was our guest from Friday until Sunday. In speaking of the additions to Irvington he said: "That place is the best town on the road—Henderson Route—and five years from now her population will be so great you won't know Irvington." Cloverport shall be glad to meet Irvington half-way and just make a full-grown city while the job is on.

Mrs. Ella Hutchinson Ellwanger, who has been writing some excellent letters to the newspapers, from Frankfort, has moved to Louisville and her splendid work will be greatly missed. The press people of the State trust that she will continue her work in the Falls City.—Daville Messenger.

We have never seen a set of men so well pleased as those on the railroad sections who are getting their pay in cash every Saturday night. Paymaster Ferry's service is a pleasure to the men; he is always friendly and in a good humor while he hands out the gold to to.

F. K. Rhodes, of Owensboro, was on the passenger train Monday evening en route home from Elkhorn. Mr. Rhodes is enjoying a prosperous business. He is a Ben Johnson man and wants him to be our next Governor.

Our farmers are getting a good price for their products on the market, it is true, but how does it figure up when he goes to town and buys machinery and other articles on which a high tariff is levied to build up the trusts.

Working men are still told that the existing protective tariff is a boon to them, but if they could know something of the cost of living in districts where high protection is felt most, they would not think so.

Republicans call this an off year and that they will carry the county by 500 majority. They will not get half of it, if Democrats will turn out to the polls next Tuesday.

Please remember that there is an election next Tuesday. Let every Democrat get out and do his duty.

The records of Congress show that Ben Johnson has always voted in favor of the laboring man.

A vote for Ben Johnson is a vote against the Trusts and the high tariff.

Only seven weeks till Christmas, which falls on Sunday this year.

PICKED UP

John Mercer has sold his farm of 210 acres to Henry Hardisty for \$2700.

The Sam Dix farm owned by Sterling Alexander has been sold recently to Peyton Canary for \$14,500.

A. L. Kendall of Webster sold to Sexton Daniels 200 pounds of Burley at #12 round. He has 10,000 pounds more for which he was offered 9 cents and refused it. Mr. Daniels has bought several cropland in that neighborhood.

One thousand two hundred and eighty-two hogsheads of 1910 Burley were sold in Louisville last week at

prices ranging from \$3 to \$18.75, the average being \$9.91. 43 hogsheads dark sold from \$1 to \$12, the average being \$8.

Finley Miller went to Louisville Monday to sell his purchase of dark tobacco at Stephen's sport.

Wm. Hall's sale at Webster last week was well attended, and good prices prevailed. His farm was not offered.

The sale of the effects of the late Mrs. Hunter at her place near Sample, came to a successful conclusion yesterday. There was a big crowd of men and women in attendance, and everything brought good prices.

CERTAIN RESULTS

Many A Cloverport Citizen Knows How Sure They Are.

Nothing uncertain about the work of Doan's Kidney Pills in Cloverport, there is plenty of positive proof of this in the testimony of citizens. Such evidence should convince the most skeptical doubter. Read the following statement:

J. C. Weatherholt, High street, Cloverport, Ky., says: "Two years ago I did not think it possible that I could ever be well again, in fact, I settled up my affairs. I cannot fully describe the misery I endured from the pains through my back. Whenever I stooped the pains became so sharp that it really felt as if someone were thrusting a knife into my kidneys. I had to grasp my eyes and had to grasp something to keep from falling. My doctor said I must go to twice the natural amount of time to walk rapidly until I was a mere skeleton. The doctors' medicines and the many guaranteed cures that I tried, did not help me and finally it was my good fortune to hear about Doan's Kidney Pills. I immediately procured a box at Fisher's Drug Store and I was greatly surprised with the results received. Before I had taken the contents of the second box, there was a marked improvement and I continued using them until I was completely cured. I am now well and I give Doan's Kidney Pills the credit."

THE PERIOD ROOM.

"Unities" Associated With Each Style Should Be Preserved.

CHIPPENDALE A SAFE CHOICE

Small Amount of Furniture in a Large Room Characteristic of Eighteenth Century Style—Balance to Points of Stiffness the Aim.

Common sense collectors will be wise to keep constantly before their eyes the possibility of gathering material for an eighteenth century room. Those who have a house with many rooms and plenty of funds for furnishing may, of course, set their mind upon a Queen Anne room, a Chippendale room, a Sheraton room, a Hepplewhite room, and an Adam room; and if they set their minds upon the working out of such diversifications in style and spend their money discreetly will in the course of a year or two possess a very charming house, providing, of course, that they keep ever before them the necessity for maintaining the "unities" associated with each style, the details of wall and ceiling decoration.

The truth is that while one must draw a hard and fast line in regard to oak, rightly extending from the oak room any piece of furniture that is

MAHOGANY ARMCHAIR, EIGHTEENTH CENTURY.

not made of that wood or of some wood having the same characteristics and treated in the same spirit, one need not do well in respect of the greater number of styles of the eighteenth century. There is no lack of harmony between any of them.

"Ye are welcome, my masters all, should be the motto of the collector in regard to the productions of Chippendale, Sheraton and the rest. This is the motto of the collector in regarding all their designs. Grace can nothing but grace was what they sought to encompass, and this is the link that unites them all and gives a similitude of character and unity of expression to their productions, also by the fact that they were on the side without the possibility of surpassing any but the most exquisite impression to the most fastidious of connoisseurs. The effect is not decreased to an appreciable extent even if a couple of Queen Anne chairs or a Georgian corner cup-

board are brought into the same room. The chairs must not, however, be in laid—certainly not in the Dutch style. There is no possibility of furnishing that can be recommended to begin our collecting, excepting that of the Chippendale period of the eighteenth century, the fact being that a few pieces are quite suitable to go on with. A small amount of furniture in Regency and Empire has been genuinely characteristic of the middle of the eighteenth century, and assuredly if one is desirous of reproducing the effect of a room of the period one should aim at balance almost to a point of stiffness of arrangement and avoid the least appearance of crowding.

Dusting Apron.

One of the greatest household conveniences is a dusting apron, or rather, an apron to wear on the days when you are dusting and cleaning. It can be made of denim of a dark color, with a long pocket for the feather duster, another for the dusting cloth and still another for a small whisk broom. With these articles at hand you are saved many a step to find the duster needed for different articles.

AFTER SUFFERING ONE YEAR

Cured by Lydia E. Pinkham's Vegetable Compound

Lydia E. Pinkham's Vegetable Compound has made me a well woman, and I would like to tell the world of it. I suffered from infirmities trouble and my health was failing. I had the best doctors and they all declared that I was incurable in addition to my female trouble, and advised an operation.

Pinkham's Vegetable Compound made me a well woman and I have no backache. I hope I help others by telling about Lydia E. Pinkham's Vegetable Compound, which has done for me." — MRS. EXMAMSE, 832 First St., Milwaukee, Wis.

The above is only one of the thousands of grateful letters which are constantly being received by the Pinkham Medical Company of Lynn, Mass., which prove her claim that Pinkham's Vegetable Compound, made from roots and herbs, actually does cure those obstinate diseases which have failed, and that every such suffering woman owes it to herself to at least give Lydia E. Pinkham's Vegetable Compound a trial before submitting to an operation, or giving up hope of recovery.

Mrs. Pinkham of Lynn, Mass., invites all sick people to write in for advice. She has cured thousands to health and her advice is free.

LAMB ONCE A JOURNALIST

At One Time He Was Actively Engaged on the Staff of the London Post.

In connection with Lord Glenelg's recently published history of that old-established London journal, the *London Post*, it is interesting to recall the fact that at one time Charles Lamb was on its staff of contributors. This gentle essayist wrote for contributors a column headed "Fashionable Intelligence." In those days, as Lamb says, "every morning paper as well as every reader of fashion, kept an author who was bound to furnish daily a quantum of witty paragraphs." It was in this capacity that Lamb was engaged on the *Post*; furthermore his contract stipulated that "in the chat of the day, scandalously as it may seem, he was to supply six paragraphs a day, not one of which was to exceed seven lines in length, and the payment for which was to be 12 cents each.

In his essay "Newspapers," thirty years ago, Lamb seems to have been rather pleased with the "sticks" of chat he contributed to the press; we now find that "Ian Stuart," his editor, entertained a different opinion as to their value: "A few good children can eat, but never could make anything of his writings." Or, to put it in another way, he knew nothing; they were out of his line of reading and thought, and his drollery was wretched when given in short paragraphs fit for a newspaper."

you do not have to work close to the stove, which is usually far from the window. You can work where you wish, and be warm. You can work on dull winter days in the full light near the window, without being chilled to the bone.

The Perfection Oil Heater quickly gives heat, and with one filling of the font burns steadily for nine hours, without smoke or smell. An indicator always shows the amount of oil in the font. The filler-cap, put in like a cork in a bottle, is attached by a chain. This heater has a cool handle and a damper top.

The Perfection Oil Heater has an automatic-locking flame spreader, which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back, so the wick can be quickly cleaned. The burner body or gallery cannot become wedged and can be unscrewed in an instant for reworking. The Perfection Oil Heater is finished in Japan or lacquer, is strong, durable, well-made, built for service, and yet light and ornamental.

TRIUMPH WAS HIS AT LAST

By Dying, Salaried Man Was Able to Leave Wife Comfortably Provided For.

He looked ahead with hope when he got \$20 a week.

"Some day," he thought, "I will draw \$25. Then I will have \$1 a week more to spend for my own pleasure. My wife will have \$20 a week with which to buy nice pleasures, and we will save three. That will be \$156 a year, not counting the interest."

When he got \$25 a week he thought: "I will make myself so useful here that they will pay me twice as much as now when they are marrying me now. We will then save \$15 a week, and I will always have at least \$5 in my pocket."

When he succeeded in inducing them to pay him \$50 a week he often thought:

"If I could have an income of \$5,000 a year! Then it would be possible for me to have at least \$3 a week for myself, and we could save perhaps a thousand annually."

When the hair on his temples was white he had become so valuable to his employers that they paid him \$5,000 a year, and he often said to himself:

"If I had \$10,000 a year I believe we could manage to save a little now and then, and we could sometimes afford a dollar or two out to spend for my own pleasure."

"But, alas, poor man! He never reached that happy state. He managed, however, to leave enough in the way of insurance to enable his wife to live in the style to which she became accustomed. Which was a small triumph for a man on a salary and a wife whose ambition was to keep a little ahead of her neighbors.

HOW SHE GOT RID OF THEM

Discouraged Visits From Her Niece's Children by Teaching Them Verses From the Bible.

"What has become of those two children who visited you so often?" asked one West side woman of another. The other smiled discreetly.

"They are the daughters of my niece, and she was making a nuisance of me."

"Of course I had the children, but I never allow myself to become much of a victim of imposition. My niece is an extremely gay young widow, and she does not like to take care of her nieces. They are a constant nuisance, afternoon tea and everything, in short, which takes her away from home, and she got into a habit of sending her children over to my house for me to take care of whenever she wished to go out. So I decided it was time to speak up on the habit, for it was really bad and that of the habit, as well as mine, so I did."

"I suppose that made your niece angry?"

"Oh, no; it couldn't. I never said anything to her about it. The last time the children came over I spent the afternoon teaching them verses from the Bible, and they didn't find it sufficiently entertaining. They never came back. Just how they managed to work it out with their mother I do not know, but I suppose they struck on a legal off. Of course, she could not object to what I had done, and it proved a very simple solution."

Sensitive.

"Miss Passay is furious with that society reporter."

EVERY FARMER

As well as every business man should have a bank account.

WHY?

Because:

Your money is safer in the bank than anywhere else. Paying your bills by check is the simplest and most convenient method. Your check becomes a voucher for the debt it pays. It gives you a better standing with business men. Money in the bank strengthens your credit. A bank account teaches, helps and encourages you to save. This bank does all the bookkeeping. Your bank book is a record of your business.

FILL ELIMINATES GRADE.

Macadam Road From Cortland to Ithaca Near Complete.

The above cut gives one an idea of the vast amount of work that has been accomplished at the Gulf Hill, changing a steep, crooked road to a straight macadamized highway with a grade of about 7 per cent.

This is on the road known as No. 983, Dryden-Cortland, extending from the Dryden village line in Tompkins county N. Y., to Cortland county line, a distance of about miles. The contract was let to J. A. McCormick of East Providence, R. I. The engineering was in charge of A. L. Northrop of Dryden, the division engineer's assistant for Tompkins county. The engineers on the work were L. E. Snyder of Syracuse and Harold Fox of Cortland.

The change of grade has been effected by cutting away the tops of the hills on either side and filling in the valley between. The fill at the culvert is twenty-five feet high, eighteen feet above the old road bed. The culvert

THE GULF HILL FILL.

at the base of the fill is a hundred feet long, with a throat five feet across both ways. In making the fill, which is 180 feet wide at the top, 11,000 yards of earth were moved.

This is said by state road men to be the largest job of filling that has ever

been attempted on a state road in New York, says the Dryden (N. Y.) Herald. When the road was first surveyed the engineers planned a different route, not serching, considering the possibility of finding the valley and after a winter survey, the survey commissioners found that this plan was best.

Those who have used the road in the past will appreciate the change of grade, as this was the only bad hill between Dryden and Cortland, and the auto-drivers will make it on the "high" without a bit of worry. When this road is finished, the Dryden-Cortland road will be second to none.

The city fathers of Cortland believe that this road will be a great boon to the northern states, and the chamber of commerce is sold to have them.

A dry compound which, it is said, will draw moisture from the air and keep the dust well away.

During the next few years, the most important and the most acute situations in the body politic are to result from good roads and the attendant transportation over them. Unless the people are educated to an appreciation of them they cannot solve the questions of the future...—Selected.

Gen. Logan and Staff.

General Logan.

Savannah.

General Logan with two of his staff entered the depot at Chicago one fine morning to take a car east on his way to join his command. The general, being a short distance ahead of the others, stepped up on the platform and announced his arrival to the station master, who, about to enter it, but was stopped by an officer who said, "You will not be going in there." "Why not, sir?" says the general. "Because this is a led case and no gentleman will be going in there without a lady." There was no time to waste, so the general said, "I'll be back in the same time pointing to it." "Yes, I see there is one seat, but what shall I do with my staff?" "Oh, brother your 'staff'!" was the pertulant reply. "Go you and take the seat and stick your staff out of the window."

"I have been somewhat captive, but Donn's Regiments gave just the result desired. They act firmly and regulate the bowls perfectly." —George B. Krause, 306 Walnut Ave., Altoona, Pa.

THE WHITE WASH.

Its Presence on the Hudson Bay Company's Boat Explained.

It is or was a rule of the Hudson Bay company that no woman be allowed passage on its boats. One day some years ago as a steamer of the company neared one of the northernmost ports a string of white garments was seen hanging from the deck. The sailors were amazed, for to them the wash signified only the presence of a woman aboard the boat.

Comment was freely made of the scandal that would ensue and the shakeup that would follow. When the boat docked the line of washing had disappeared—still another proof of the scoundrel.

One of the landsmen said to the captain:

"Why, how did it happen that you carried a woman passenger this trip?"

"There was never a woman along the whole voyage," was the indignant answer.

"If there was no woman aboard where did all that white wash come from?" was the triumphant reply.

The captain looked puzzled for a moment, and then he blurted:

"Oh, yes, I saw 'em and I know how they got there, but I can't tell myself along with on this trip."

Every day doesn't see me having old white shirt no more nor far north we may. That's the white wash you saw string along deck, and what's more doesn't see me helpin' me sit up in my bed. London wash old besides my plates every morning, not matter if it is a year old!" —Percy's Note.

The Modern Idea.

A water course in a certain city, where he had been turned off because he wouldn't write to the department as follows:

"In the matter of shutting off the water on unpaid bills, your company is fast becoming a regular crystallized Russian bureaucracy, running in a groove and deaf to the appeals of reform. There is no use of trying to let them know that they are indeed making their official heads in the teeth of your own ideas."
